FUND

School district accounting systems are organized and operated on a fund basis. A fund is an accounting entity with a self-balancing set of accounts recording financial resources and liabilities. A school district designates the fund's financial resources for a district purpose. The fund's purpose can be established by the state or federal government as well as the school district. It is a mandatory 3 digit code is to be used for all financial transactions to identify the fund group and specific fund. The first digit refers to the fund group, and the second and third digit specifies the fund. Fund codes are defined in the Texas School Directory, assigned by the state. The fund identifies the fund source from which monies are spent.

FISCAL YEAR

The fiscal year code is a mandatory code to be used by all school districts. It is a mandatory single digit code that identifies the fiscal year of the transaction or the project year of inception of a grant project. For the school district's fiscal year, the last digit of the school year is to be used.

FUNCTION

A function code represents a general operational area in a school district and groups together related activities. Most school districts use all of the functions in the process of educating students or organizing the resources to educate students. For example, in order to provide the appropriate atmosphere for learning, school districts transport students to school, teach students, feed students, and provide health services. Each of these activities is a function. It is a mandatory 2 digit code applied to expenditures/expenses that identify the purpose of the transaction. The first digit identifies the major class and the second digit refers to the specific function within the area. The function identifies the transaction purpose (WHY).

ORGANIZATION

An organization is a group of employees who are obligated to complete a specific responsibility. Usually, an organization has an identifiable leader or an individual who is accountable for the overall completion of the responsibility. An organization code does not necessarily correspond with a physical location. It is a mandatory 3 digit code that identifies the organization; the activity, not the location, defines the organization. Campuses are examples of organization codes and are specified for each school district in the Texas School Directory. The organization is the owner of the purchase or who the purchase is benefiting.

FINANCIAL ACCOUNT CODE STRUCTURE

PROGRAM INTENT CODE (PIC)

These codes are used to account for the cost of instruction and other services that are directed towards a particular need of a specific set of students. The intent (the student group toward which the instructional or other service is directed) determines the program intent code, not the demographic makeup of the students served. School districts are to use program intent codes in all functions when a cost is clearly attributable to a specific program intent. It is a 2 digit code used to designate the intent of a program provided to students. These codes are used to account for the cost of instruction and other services that are directed toward a particular need of a specific set of students. The program intent code is used to account for a particular program (WHY).

BUDGET MANAGER

These codes are used, at the option of the school district to account for information not otherwise provided in the mandatory chart of accounts. It is a 2 digit code for optional use to provide special accountability at the local level. The budget manager defines the purchaser (WHO).

OBJECT

Revenues are defined as an increase in a school district's current financial resources. These codes are distinguished from other types of object codes as they always begin with the digit "5." Expenditures/expenses should be classified by the major object classes according to the types of items purchased or services obtained. An expenditure/expense account identifies the nature and object of an account, or a transaction. These codes are distinguished from other types of object codes as they always begin with the digit "6." The school district's accounting records are to reflect revenues and expenditures/expenses at the most detailed level, as depicted in the chart of accounts (4 digits) for accounting and PEIMS reporting purposes. It is a mandatory 4 digit code that identifies the nature and object of an account, a transaction or a source. The first of the four digits identifies the type of account or transaction, the second digit identifies the major area, and the third and fourth digits provide further sub-classifications. The object identifies the nature and object of an account, transaction, or a source (WHAT).

SUB-OBJECT

These codes are used at the option of the school district to provide local option coding as needed or desired. It is a 2 digit code that may be used by the district to further describe the transaction. The sub-object is an extension of the object in defining the (WHAT).

BUDGET OVERVIEW

Each year, the Board of Trustees and Superintendent begin the budget process by reviewing the goals that establish the basis for budgeting available resources. Considering the fast-growth environment, the economic conditions, the changes in accountability standards, and the change in student population, the District makes it a priority to analyze and adjust the programmatic structure to best meet the needs of the students.

The planning for budget requests and the management of the approved budget are factors of a long-range District Management Plan, as well as of site-based management. Although each campus budget will address individual campus plans which target student learning and other specific areas, the overall focus will reflect the District's mission and goals. Likewise, departments which provide services in support of the mission and goals will allocate dollars accordingly.

Because the planning process is the essential ingredient in creating a budget which will allow us to reach campus and district goals, the administration and Board of Trustees are committed to the development of a comprehensive approach. The justification for any expenditure is an implementation plan which aligns with the Campus Improvement Plan, District-wide Educational Improvement goals and State and Federal requirements. The involvement of process owners, the in-depth assessment of needs and the inclusion of evaluation of programs, all coupled with careful planning, will work in harmony to guide us to provide the best education possible for all our students and the wise allocation of resources.

The Texas Education Code requires that every local education agency in Texas prepare and file a budget of anticipated revenues and expenditures with the Texas Education Agency. The budget process must include budgeting for the General Fund, Food & Nutrition Services Fund, and Debt Service Fund. Other funds that are represented in this book, such as Special Revenues, Capital Projects, and Activity funds, are for information purposes only, as they do not require an officially adopted budget.

Each year, the budget process officially begins in January with the preparation of the budget calendar and process for the upcoming year. During January, the demographer study allows the District to begin looking at growth rates, trends, and economic conditions affecting the district. The forecasting then is able to be utilized in staffing allotments and in campus budget financial allocations. Through the course of the spring each year, the campuses and departments begin formulating the needs assessments and requests for the budget. A summary budget is then presented to the Cabinet and the Board of Trustees in various workshops and meetings. A summary budget is posted on the website once the notice is submitted to the newspaper. With a September 1 - August 31 fiscal year, the State Board of Education requires that the budget be prepared no later than August 20 and must be adopted by the Districts Board of Trustees by August 31.

DIRECTOR BUDGET PLANNING

Directors will be Budget Managers for their respective programs and as such, will assume the responsibility for coordinating the involvement of program staff. Budget Managers will appoint staff to serve on their budget planning group, to schedule meetings of the group, and to chair those meetings. Records and results of those meetings shall be maintained. Results of planning groups should be consistent with goals and priority objectives and targeted areas of student, staff, facility and program needs.

Members are to represent their own areas as well as objectively consider the concerns and needs of others. Since the results should represent a consensus of the group, a consensus building model should be used. The Directors shall present the results of the budget planning to their Management Team for negotiation and approval. Once this is achieved, the Directors will forward the budget to the Executive Director for Business Operations.

Operations and Facilities expenditures in addition to historical expenditures should focus in order on Priority I, Safety; Priority II, Compliance Issues; Priority III, Building Envelopes (walls, doors, ceilings, and windows); Priority IV, Programmatic Requirements; Priority V, Aesthetics; and Priority VI, Wants. A historical review of 2019-2020 expenditures for items such as gasoline, oil, tires, electricity, etc. should be used as a basis for projection for 2020-2021.

Any increases to department budgets must have justification and presented to Superintendent for review and approval.

CAMPUS BUDGET PLANNING

Campus Principals will be Budget Managers for their building and programs, and as such, will assume the responsibility for coordinating the involvement of staff at the campus level. Budget Managers will appoint staff to serve on their campus budget planning group. Those appointees should already be involved in setting goals and planning objectives for that campus and its programs. Appointees should be representative of the departments, grade levels, etc. and solicit input from areas they represent. Budget planning should be consistent with priority objectives of the District, campus improvement plans, instructional goals and objectives, and identified student needs. Parents and community members are to be active members of this committee. The principal will chair this group and the meetings. Records and results of these meetings shall be maintained. Information is to be ongoing and shared by committee members with areas they represent.

Members are to represent their own areas of concern and all programs and needs of the campus. This core group shall present the results of their budget planning to the Campus Improvement Team for review and negotiation.

Once a consensus has been reached and a budget agreed upon by the budget planning group and the Campus Improvement Team, the campus principal shall secure signatures of agreement from each member. Once this is achieved, the Principals will forward the budget along with the Advisory Committee Acknowledgement form to the Executive Director for Business Operations.

The methodology is a simple district wide per student calculation distributing local funds based on prior year peak enrollment. The rates per student allocations are set annually by the Superintendent.

SPECIAL POPULATIONS

State program allotments are estimated and paid to school districts through a Summary of Finance template created by the Texas Education Agency. A percentage of each state allotment must be spent on "direct" expenditures for the given special program. The expenditures of the special program allotments shall be in compliance with District purchasing policy and procedures. The supplemental state allotment programs that are monitored for LEA compliance are: Special Education, State Compensatory Education, Career and Technology Education, Early Education, Dyslexia, and College, Career, and Military Readiness. The current required percentages and program intent code (PIC) are noted below by program:

SPECIAL POPULATIONS

The District focuses on ensuring compliance and accountability related to the supplemental state allotment program funding. Expenditures are budgeted in the appropriate programs for all functions and objects. Program intent code 99 is distributed among all program intent codes in the PEIMS reporting for an allocated expenditures report. The special allotment monitoring program risk assessment is specifically designed to analyze the LEA's special allotment spending and reporting requirements for the purpose of identifying potential non-compliance issues. The monitoring program's risk assessment process is based on three consecutive state fiscal years of the LEA financial data reported in the FSP System and PEIMS. The three year rolling average calculation is not used during the annual audit.

OTHER SPECIAL REVENUE FUNDS

Other special revenue funds below are used to account for resources restricted to specific purposes by a grantor. The unused funds are returned to the grantor at the close of the specified project, or accommodations for roll-forward amounts are considered with each grantor. These funds provide supplemental resources to enhance, not supplant, the basic education program provided by the District through general funds. These funds must follow all EDGAR guidelines. The methodology is a simple district wide per student calculation distributing state and federal funds based on the number of students at each campus. The formula allows each campus to receive funds at the appropriate allocation for its campus use.

PURCHASING OVERVIEW

Procurement and purchasing are organized and administered for the District in accordance with the responsibility and authority delegated by the Superintendent and the Board of Trustees. Business Services is responsible for the expenditures of District funds in such a manner that all transactions will pass numerous audits with respect to state, federal, and district procurement and purchasing regulations. Any commitment to acquire goods or services in the name of Dickinson Independent School District for personal use or ownership is prohibited. Any person making unauthorized purchases shall assume full responsibility for all such debts (CH Local).

VENDORS -- Vendors must complete a vendor packet, located on the Business Services Google drive, prior to being approved as a vendor by Business Services. Vendors must be a member of a cooperative purchasing program (COOP), be awarded a bid dependent upon specifications set forth Texas Education Code, or qualify as a District sole source vendor. The only exception to these requirements are vendors used by agency funds (Fund 800's). Once the vendor is approved they are listed in the District's finance software. Campuses and departments making purchases must ensure that a vendor already set up in the District finance system is part of a current bid or purchasing cooperative prior to submitting a requisition. Bids are generated by Business Services and approved by the Board of Trustees. Campuses and departments responsible for the bidding requirements should allow sufficient time for bidding process. The District's current bid and COOP vendor lists are kept in the Business Services Google drive. The following cooperatives have been approved by the Board of Trustees for District purchases:

Allied States Cooperative (Region 19 ESC)

Original PSA shall be submitted to Business Services prior to services being rendered. All contracts will be issued on a purchase order.

TAX-EXEMPTION -- All district purchases are tax-exempt. The use of the district's tax-exemption certificate for personal purchases is prohibited. Tax-exempt forms will be provided to vendors by Business Services once a purchase order is issued.

PURCHASING OVERVIEW

COMMODITY CODE -- Commodity codes are standard classification codes for products and services that are used to categorize how money is spent within the district. The level of approval, bid, and advertising requirements are determined by the aggregate spending per commodity code. Commodity codes are broken out by department; however, any commodity code is available for use by any campus and department based on expenditure. Each line item on a requisition shall be assigned a commodity code. The District's current commodity code list is kept in the Business Services Google drive.

SHIPPING -- Shipping charges shall be selected for all regular PO's. All orders, except for technology items, shall be shipped directly to the ordering campus or department. All requisitions for technology items shall be entered with the ship to location code 947=Technology for inventory purposes. District purchases sent to a location other than a District address is prohibited. Backorders shall also be avoided.

REQUISITION/PURCHASE ORDER -- All District expenditures require a purchase order regardless of fund type used. A purchase order is a binding contract between Dickinson Independent School District and the vendor. Quotes are used for planning and budgeting and should be attached to the requisition in the Districts finance software. In addition to the commodity code description, the quote number shall be listed along with a thorough description of items ordered. Verbal orders are prohibited. Reimbursements will not be made for purchases made not in adherence to purchasing procedures. All requisitions must go through an approval process based on funds used or type of purchase being made. The table below shows the chain of approvals by location code. These location codes generate the workflow of approvals for requisitions, change orders and budget transfers.
