Compensation Plan

Definition of a Pay System

A pay system consists of all the policies, procedures and management tools that are used to define the basis for organizational pay actions.

A pay system should include:

- Job titles and job descriptions
- Defined pay ranges for each job
- Policies and administrative procedures
- Plan for communicating with employees
- Process for maintaining the system

Basic Objectives of a Pay System

Pay systems should be designed strategically to control and facilitate the following basic objectives:

Objective:	Pay for Job Responsibility
Strategy:	Set and maintain the proper pay differential between jobs that require different levels of skill, effort, and responsibility.
Objective:	Pay Competitively
Strategy:	Keep trained employees paid within a proper range of the competitive job market.
Objective:	Provide Continued Pay Advancement
Strategy:	Prevent employees from topping out of pay scales too soon OR becoming overpaid for the worth of the job.
Objective:	Recruit Good Applicants
Strategy:	Keep starting salaries attractive by allowing inflationary adjustments to be made easily and within budget.
Objective:	Keep Payroll Costs Affordable
Strategy:	Keep payroll cost increases flexible to allow annual planning in response to revenue and market changes.
Objective:	Keep Good Employees
Strategy:	Pay trained employees' fair salaries for the worth of their job in an appropriate period of time.

Pay Equity

Definition

Fair pay for the worth of the work performance to the organization.

Internal Equity

The worth of a job to the organization based on job content (skills, responsibility, effort required). To have internal equity, the system must identify the relative worth of all jobs according to a common set of compensable (job worth) factors.

External Equity

The worth of a job to the organization based on the outside job market (competitive pay). To have external equity, the system must identify the relative worth of jobs in the competitive marketplace.

Compensable Factors

Definition

Any factor (job characteristic) used to provide a basis for judging job value in a job evaluation process. The most commonly employed compensable factors include skill, effort, responsibility, and working conditions, where applicable.

Skill

- Knowledge and abilities required to successfully perform the job.
- Education or specialized knowledge — acquired through formal training or lower-level training.
- Experience — work experience beyond education or specialized training needed to perform the job.

Effort

- Difficulty of the work performed in terms of physical or mental energy.
- Working conditions — adverse conditions (physical hazards, stress or excessive time) associated with performing normal job duties.
- Complexity — difficulty of task and mental focus needed to complete tasks.
- Judgment — frequency and importance of independent decisions necessary to perform the job.

Responsibility

- Effects of proper or improper action on the products or services of the entire organization.
- Scope of authority — the degree to which influence is exercised over school operations and the scope of impact the job has on the district.
- Supervision of others — accountability and obligation for work performed by other employees.

Staffing Guidelines

Purpose

The purpose of this compensation plan booklet is for the administration of salaries and wages for classroom teachers, administrative educational programs and business operations, administrative support, instructional support, and auxiliary employees of the Dickinson Independent School District. Practices described are intended to implement local Board policy and Board approved compensation plans and to comply with state and federal regulations.

New Hire Placement Guides

The employment, assignment, and salary placement are in accordance with the job requirements as specified by the job description. For all employees, the District will only consider actual years of experience, not purchased years of experience for TRS purposes. The District does not pay for teaching experience unless verified with an official Teacher Service Record [TSR]. Out of state or private school experience must be verified on a TSR. Work experience at a college or university must also be verified by a service record and by the College Verification Form.

Where job requirements include transcripts, certificates, or licenses, these must be official and on file with Human Resource Services. Official transcripts become property of the Dickinson Independent School District as long as he/she remains a District employee. All college degrees obtained, or semester hours earned to obtain employment or to receive graduate or undergraduate pay are accepted only if they are from institutions accredited by nationally recognized accrediting agencies. Audits for official documents are performed annually.

The Dickinson ISD Human Resources Department will determine hiring rates based upon job-related qualifications, salary history, and salaries of other employees in the same position. Hiring rates shall normally not be set at a rate above the salary of other employees with equal or more experience in the same position/pay grade. The Executive Director of Human Resources sets hiring rates. Salaries are determined on an individual basis based on each person's credited years of experience, current shortage needs of the District, and credentials related to instructional leadership or method.

Breaks in continuous service for any reason means the new hire placement guidelines are used. Movement from one pay group to another (i.e., teacher to administrative professional or instructional support to administrative support) will result in the use of new hire salary placement guidelines. Rate of pay will not exceed the maximum or be below the minimum of the pay grade without Superintendent approval.

Additional Notes

The Superintendent is authorized to modify staffing guidelines as required to meet budget constraints. Staffing Levels are to be monitored by budget managers. Any increase over approved levels will require prior approval of the Superintendent. Any increase over approved levels that will require additional budget allocation shall have prior School Board approval. Maintenance and Transportation staffing shall be determined by the Superintendent annually during budget planning and as conditions warrant during the budget year.
