New Student

Mickey B Langelierscr was added to this class on **Monday, January 4 2010**
 From **08640 / 02 APPLIED MATH V**

Do not display NEW by this student's name.

Option #1 - Auto-Transfer
 Mickey B Langelierscr
 Choose this option to

Option #2 - Transfer A
 Choose this option to
 Use Dropped Class:

Entity

001 - Entity 9 to 12

Option #3 - Manually Enter
 Choose this option to

Option #4 - One-Click Transfer
 Click **Transfer Percent**

T1: Current percent of class
 Current percent of class

The New Student Transfer Score feature has been divided into four options teachers can choose from.

Option #1 is the existing option that is only available when the new student transferred from another section of the same course. This option allows teachers to transfer assignment scores and grades which can be auto-transferred.

Option #2 is a new option that is available when the new student has previously dropped classes, in any entity. A list of dropped classes will display allowing the teacher to manually select one. Once selected, they have the option of transferring assignments and term grades from the dropped class selected, or they can skip the assignments and transfer the term grades only.

Option #3 is a new option that is available when the new student was simply added to the course and does not have any dropped classes available. This option should always be available for new students. The teacher has the ability to enter grades for previously closed grading periods for the current class.

Option #4 is a modification to Option #1. This is only available when the student transferred from another section of the same course. It allows the teacher to instantly transfer term percents from the dropped section of this course to the current one.
